Advantagious To All

TEACHERS

Basically the teachers here are the volunteers of any age who wants to share their skills/course in which they are professionally qualified. This is helpful for the volunteers as they invest their free time in helping others which not only polishes their knowledge, but also enhances their knowledge and gives them experience.

STUDENTS

Our main aim is to reach more and more needy students because it will be very helpful for them as they can learn as many courses freely they want. They can have classes offline in their nearby areas too if they are unable to take them online. They can buy books in free, although there are some minimal delivery charges.
